PROJECTS

EV Market Analysis Dashboard | Power BI

Tools: Power BI, DAX, Power Query, Excel

- Built a multi-page interactive dashboard to analyze EV market trends, vehicle performance, and brand comparisons.
- Developed dynamic KPIs for range, battery capacity, charging time, horsepower, torque, and top speed using DAX.
- Applied Power Query for data transformation and data modeling to deliver actionable business insights.

Sales Performance Dashboard | Power BI

Tools: Power BI, DAX, Power Query, Excel

- Developed an end-to-end sales dashboard tracking revenue, profit, customer performance, and regional sales trends.
- Created interactive reports with KPI cards, drill-through analysis, and dynamic filters using DAX.
- Designed an optimized data model to improve reporting efficiency and support business decision-making.

SQL Data Analysis Project

Tools: SQL (MySQL)

- Performed exploratory data analysis using complex SQL queries, including JOINS, CTEs, Window Functions, Aggregate Functions, and Subqueries.
- Analyzed customer, sales, and operational datasets to identify trends, business insights, and performance metrics.
- Optimized SQL queries for efficient data retrieval and developed analytical reports to support data-driven decision-making.

WORK EXPERIENCE

Data Analyst Intern

Jul 2026 – Present

Unified Mentor Pvt. Ltd. | Gurugram, India (Remote)

- Working on real-world data analytics projects as part of a structured internship program.
- Built an end-to-end shipping route efficiency analysis for a candy distributor using Python and Pandas — covering data cleaning, geographic bottleneck analysis, and ship-mode comparison.
- Delivered the analysis as a live, interactive Streamlit dashboard, published on GitHub.

Customer Support Executive – Chat & Email

Sep 2023 – Oct 2024

Concentrix | Gurugram, India

- Provided customer support via chat and email, handling high-volume daily interactions while maintaining service quality and SLA standards.
- Independently maintained a personal performance tracker in Excel using Pivot Tables and VLOOKUP to monitor own KPIs over time.
- Maintained accurate records of customer interactions to support consistent, high-quality service delivery.
